Blackman Plumbing Supply Opens New 7,000 ft² Showroom in Lakewood, New Jersey

This New Space Offers Tile, Stone, Lighting, and Outdoor Living Products in Addition to Plumbing

Bayport, NY – Blackman Plumbing Supply Co., Inc (Blackman), the New York based plumbing supply company, has recently opened a new showroom in Lakewood, New Jersey. Located at 1001 New Hampshire Ave, this is Blackman's first showroom in southern New Jersey. Equipped with working shower displays, outdoor living products, and lighting for every room in the house, this new showroom is designed to serve the ever growing “shore market.”

Blackman's Lakewood showroom displays products to serve all price points. The newly designed space is the only authorized showroom in the area to display Kohler, DXV (American Standard), and Toto products. Also on display are incredible mosaic displays, beautiful room settings, and vignettes perfect for the summer beach houses that dot the shore.

“This newly opened showroom, which will be connected with our new parts counter, is a space that will work for plumbers, builders, designers, and most importantly – homeowners,” says Blackman's Vice President of Retail, David Lyon. Lyon continued, “As Blackman's retail business continues to expand into the New Jersey market, we will continue to build beautifully designed showrooms to better serve our customer base.”

About Blackman Plumbing Supply Co., Inc.

Founded by Sam Blackman as a small plumbing supply shop in New York City, Blackman has grown into one of the largest distributors in the North East. In addition to Plumbing, Blackman also supplies a variety of Heating, HVAC, WaterWorks, Tools, Lighting, Tile, Stone, and Outdoor Living products. With over 20 locations throughout New York, New Jersey, and Florida, Blackman is proud of its 95 years of service.
